## Ginseng & Pilose Antler Capsule

*Secret Prescription used by Royal Families*

**Eight Years' Painstaking Perfect Health Product**

The process used to manufacture Feng Ling Sen Ginseng & Pilose Antler Capsule is derived from the secret prescriptions of ginseng and antler cream used by 18 emperors of Song, Yuan, Ming and Qing dynasties. We adhere to the modern theory of Chinese medicine, pick up the essence of various royal secret prescriptions and combine ingredients strictly according to ratio in formula. We use sophisticated and unique technology to concentrate all active essence in fresh pilose antlers. It can be said that the capsules have no peers in terms of providing health and power source. The capsules enable you to improve qi and blood and remain energetic!

*Secret Prescription used by Royal Families*

### Revealing the active essence:

Pilose antlers are soft horns of bucks. They are precious Chinese crude drugs because they contain glutinous substances, calcium with different structure and many trace elements. The pilose antlers are rare and expensive, so the active essence should be maintained as many as possible during processing. They must not be used as decoction.

The nature of pilose antlers is wet. They can strengthen yang but will not cause excessive internal heat. When used with Ying-nourishing medicine, they can nurture Yin but will not make body feel greasy, so they are suitable to be taken orally. The pilose antlers can help treat degenerative diseases of skeletal system and other diseases caused by functional decline of organs, for example, nocturia, impotence, gasp caused by kidney's inability to hold breath, tinnitus caused by kidney's inability to be connected with other organs, and even hearing loss. The ancient people considered the pilose antlers as one of the top tonics. They are even as famous as wild ginseng that has grown for a long time.

**The pilose antlers contain a variety of active essence, including the following:**

1. More than 9 kinds of phospholipids, such as cephalin, lecithin, sphingomyelin, glycolipids, glue fat, etc.
2. Polypeptides. Polypeptides can eliminate inflammation, prevent cancer. They also have hypoglycemic effect.
3. Biogenic amines, such as dopamine, spermine, amidine amine, etc. Dopamine can be used to treat traumatic, infectious and cardiogenic shock. It can strengthen myocardium and increase renal blood flow.
4. Prostaglandin PGE1, prostaglandin PGE2, etc.
5. Vitamin B1, vitamin B2, vitamin D, vitamin E, vitamin K, etc.
6. 19 amino acids (the amount of total amino acid reaches 50.13%).
7. More than 23 kinds of inorganic elements (including various trace elements: germanium, calcium, phosphorus, magnesium, sodium, selenium, etc.).

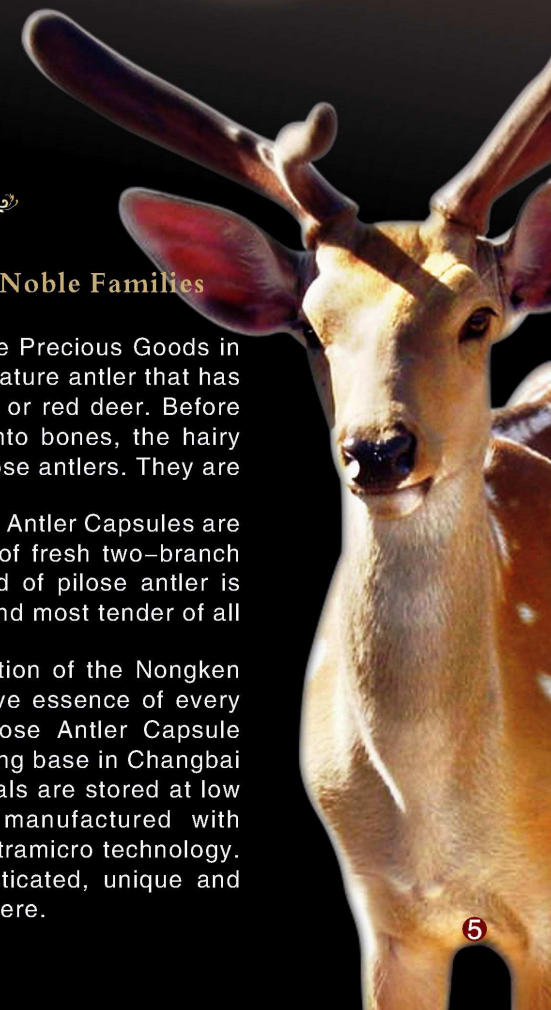

### The Choice of Royal and Noble Families

Pilose Antler is listed in "Three Precious Goods in Northeast China". It is the immature antler that has not yet ossified of spotted deer or red deer. Before the soft horns of bucks grow into bones, the hairy antlers with blood are called pilose antlers. They are precious Chinese crude drugs.

Feng Ling Sen Ginseng & Pilose Antler Capsules are made only from the first batch of fresh two-branch pilose antlers in May. This kind of pilose antler is prime, it is the most nutritious and most tender of all antlers.

Our company upholds the tradition of the Nongken brand. We ensure that the active essence of every Feng Ling Sen Ginseng & Pilose Antler Capsule comes from spotted deer breeding base in Changbai Mountain. The fresh raw materials are stored at low temperature, processed and manufactured with freeze drying technology and ultramicro technology. Because the process is sophisticated, unique and confidential, we will not detail it here.

## Used by Royal Families Favored by Emperor Qianlong

The secret prescription of ginseng and antler dates back to almost a thousand years ago. Emperor Qianlong favored this prescription very much, and he wrote: "Ginseng and antler cream can empower vital gate, activate qi and blood, nourish the five internal organs and strengthen bones and muscles. It helps cure the diseases of qi and blood, the five internal organs, bones and muscles."

The secret prescription of ginseng and antler can nourish the vital gate. According to Inner Canon of Yellow Emperor, vital gate is human being's lifeline. From top to bottom, it is connected with heart and lung, liver and spleen, and then with the kidneys; it can affect brain in the upper part of body and can control reproductive system in the lower part. It is associated with bones, muscles and meridians, and is regarded as the source of five internal organs, qi and blood, bones and muscles.

According to Classic of Questioning, once a person is over toiled or suffered from diseases, the vital gate becomes weak, the body fails transforming qi, and interior yin coldness becomes excessive. Chained lesions occur in qi and blood, bones and muscles, the five internal organs and reproductive system.

In accordance with Traditional Chinese Medicine, vital gate is imperative in treating diseases of qi and blood, the five internal organs, bones and muscles. Nourishing vital gate can help cure many diseases.

When people grow old, their bones and muscles grow old first. When people become weak, their qi and blood become weak first. When people get sick, their five internal organs get sick first. For the middle-aged, no matter what disease they catch, they feel dull and cannot breathe smoothly. They get pain in legs and waists and cannot climb the stairs. In fact, these are all symptoms demonstrating lesions of the five internal organs, qi and blood, bones and muscles. According to Traditional Chinese Medicine, diseases with thousands of symptoms can be divided into three categories: diseases of qi and blood, diseases of the five internal organs, and diseases of bones and muscles.

The secret prescription of ginseng and antler cream has been used for a thousand years by royal families. This method aims nourishing vital gate.

Diseases of qi and blood

1. Qi deficiency leads to symptoms related with spleen and lung: low voice, shortness of breath, weakness, dizziness, night sweats, loss of appetite, loose stools.
2. Blood deficiency leads to symptoms related with heart and liver: palpitations, dizziness, paleness, insomnia, amnesia, hair loss, amenia.
3. Qi and blood deficiency leads to symptoms related with kidney: laziness, anergy, shortness of breath, night sweats, cold hands and feet numbness, urinary frequency, nocturia, nocturnal emission, impotence, low sexual function.

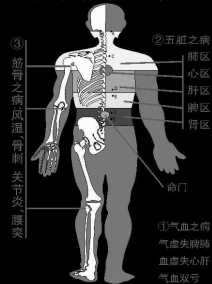

Diseases of the five internal organs

1. The heart area: palpitations, chest tightness, shortness of breath, angina, cardiac ischemia and coronary heart disease.
2. The spleen area: food swelling, nausea, hiccups, heartburn, indigestion, loose stools, constipation, incoordination between spleen and stomach, gastroptosis and stomach illness.
3. The kidney area: aching and limpness in legs and waists, urinary frequency, urinary urgency, impotence, coldness in uterus, hot flashes, irritability, prostate hyperplasia, menopause, hair loss and gray hair.
4. The lung area: cough, shortness of breath, sputum, weakness and asthma.
5. The liver area: liver deficiency, depression, mammary swelling and vertigo.

Diseases of the bones and muscles

1. Swelling of joints, tingling and pain in neck, shoulder, waist and legs and cramps.
2. Legs suffered from rheumatism, bone spur, arthritis, prolapse of lumbar intervertebral disc, cervical spondylosis, periostitis and osteoporosis.
3. Rheumatoid disease and fracture.

## Feng Ling Sen Ginseng & Pilose Antler Capsule

### High Profile Launch

The secret prescription is used by royal families in Qing dynasty; it is derived from prescriptions in Selection of Prescriptions for Longevity. Emperor Qianlong always took medicine made with this prescription. In this prescription, the pilose antlers are combined with eucommia and ginseng. They can not only strengthen kidneys, but also improve qi and spleen. Archiaters of royal families in Qing dynasty use this prescription to improve the emperors' health, which demonstrates that the medicine has extraordinary effect.

Feng Ling Sen Ginseng & Pilose Antler Capsule: the health product with two functions -- strengthening immunity and relieving physical fatigue.

Feng Ling Sen Ginseng & Pilose Antler Capsule has remarkable anti-fatigue effect. Inspected by anti-doping center of General Administration of Sport of China, this product is proved to be containing no irritants, narcotics, beta-blockers, diuretics, hormone drugs and other functional drugs prohibited by World Anti-Doping Agency in 2008. This product was confirmed in November 2010 by the State Food and Drug Administration to be able to strengthen the immune system and relieve physical fatigue. It is the only product with two health functions among similar products.

*Secret Prescription used by Royal Families*

Enjoy the Godsend  Enjoy Healthy Life

From immemorial times, the pilose antlers have always been the first choice of all supplements in palaces. In Shen Nong' s Herbal Classic of Eastern Han Dynasty, pilose antlers were listed as one of 120 Chinese crude drugs. The book read: "the pilose antler is sweet and warm; it helps treat metrostaxis, extravasated blood and epilepsy caused by sudden cold and sudden heat. It can reinvigorate body, strengthen mind and help teeth grow strong. Deer' s horn helps treat malignant sores, carbuncles, expel pathogens, and keep blood in yin."

In Compendium of Materia Medica, Li Shizhen wrote that the pilose antlers "reinvigorate kidney, strengthen yang, generate energy and blood and strengthen bones."

Ginseng and antler are used by royal families for a long time; they can strengthen health, improve qi and blood, harmonize yin and yang and alleviate severe diseases. They are suitable for both men and women.

Feng Ling Sen Ginseng & Pilose Antler Capsule allows you to enjoy healthy life and prime luxury.

Natural • Active • Essential

*Secret Prescription used by Royal Families*

#### 5、Promoting Healing of Ulcers and Wounds

The pilose antlers can help ulcer healing. They also can cure recurrent peptic ulcers of the weak people. The pilose antlers can help remedy allergic rhinitis caused by weakness, especially kidney-*yang* deficiency.

#### 6、Promoting Growth, Improving Sleep, Decreasing Blood Sugar

The pilose antlers can promote growth and development, improve body's ability, reduce fatigue, improve sleep and appetite and ameliorate protein and energy metabolism. The pilose antlers contain active peptides. They can repair pancreatic functions and improve blood glucose metabolism.

#### 7、Influencing the Nervous System

The pilose antlers can intensify the parasympathetic nerve endings, facilitate restoration of the nervous system and improve the functions of the nervous and muscular system. At the same time, they can excite sympathetic nerves.

#### 8、Invigorating Blood Circulation, Detoxifying, Improving Qi and Strengthening the Body

After the users take the pilose antlers, the body will decompose the antlers into polyamine of pilose antler. This polyamine will stimulate the RNA-polymerase in liver cells and promote synthesis of nucleic acids and proteins. By regulating the excitability, inhibitory processes and endocrine functions of nerves, the polyamine can promote the metabolism of sugar and yeast, enhance detoxification functions of liver, stimulate the hematopoietic system and regulate metabolism, thereby expelling toxins from the body and strengthening health.

#### 9、Anti-Aging, Prolonging Life

The hypoxanthine, uracil, and phosphatidyl ethanolamine in pilose antlers can significantly inhibit the activity of monoamine oxidase MAO-B, while in patients suffering from diseases associated with aging, the activity of MAO-B is very high. Therefore, the pilose antlers have anti-aging effects and can prolong life.

## Research Findings of Modern Chinese Medicine

Modern Medicine has acknowledged that the pilose antlers can effectively strengthen the body and influence cardiovascular system. They can be used to remedy kidney-yin, energy and blood deficiency, impotence, premature ejaculation, coldness in uterus, infertility, dizziness, tinnitus, aching and limpness in legs and waists, coldness in limbs, fatigue, liver and kidney deficiency, weakness in bones and muscles, or maldevelopment of children, incomplete fontanelle, retardations of walking and teeth growth, metrorrhagia, leucorrhea, slow healing of ulcers. After repeated pharmacological experiment and demonstration, we find that the pilose antlers have the following nine functions:

- 1、Generating Energy, Enhancing Marrow, Strengthening Kidney and Building Body**  
The nature of the pilose antlers is warm. They can strengthen yang but will not cause excessive internal heat. When used with Ying-nourishing medicine, they can nurture Yin but will not make body feel greasy. The pilose antlers can increase the plasma and the concentration of luteinizing hormone, enhance sexual functions. They can help remedy sexual dysfunction of youth, prostate atrophy of the middle-aged and the elderly as well as menopausal disorders of the female.
- 2、Improving and Activating Immune System**  
The pilose antlers can improve cellular and humoral immune function of the body and promote lymphocyte transformation. They can be used as immunizing boosters and enhance the body's defense capabilities against the outside world. The nature of the pilose antlers is warm, but they will not cause excessive internal heat. They can excite, improve and activate functions of body's immune system. They can strengthen the kidneys of patients who are weak after suffering from serious diseases for a long time.
- 3、Protecting Cardio and Cerebral Vessels, Increasing Hemoglobin**  
The pilose antlers can reduce blood pressure, decrease cardiac contraction amplitude and heart rate, and expand peripheral vessels. Moderate doses of pilose antlers can significantly increase cardiac contraction amplitude and heart rate, thereby augmenting cardiac output. They have cardiogenic effect, and are especially useful to the fatigued heart.
- 4、Enhancing Memory, Resisting Fatigue**  
The pilose antlers contain a large number of phospholipids (lecithin, cephalin, gangliosides, glycolipids, lysophosphatidyl choline, sphingomyelin), they can nourish the neural tissues, promote synthesis of protein and RNA of the brain tissues, enhance memory and resist fatigue.
